A sailor named Muller sat upon the top of the Sims-Edison torpedo and guided it through the water while it was being driven at the rate of eighteen miles an hour. THE COUNTY FIGHT.

The Silver Men Will Elect Their Ticket This Fall.

Now that the State Convention has placed the State Campaign on its feet the work of preparing the county ticket is next in order. The meeting of the State Convention in this city and the attendant enthusiasm had a good bracing effect and has made this silver cause strong in Ormsby while the stand taken by John P. Jones has taken the heart out of the opposition.

Matters are in better shape with the silver men than two years ago. They went into the fight with almost the certainty of defeat staring them in the face, hardly daring to look for success. Now the candidates are different, Silver is the successful ticket and the current sets only in one direction.

The county administration under the regime of the silver men has been one which has carried out every pledge made to the people of Ormsby.

The economy practiced by the County Commissioners has resulted in a saving of nearly \$20,000 and there has been no charges of dishonesty or incompetency in any direction.

Under such a condition of affairs the party will go into the campaign clean handed with a good record and if judicious nominations are made the result cannot be in doubt.

The Central Committee meets on Saturday evening to arrange for the primaries and it is proposed to give the candidates any kind of primary they want.

Most of them favor the Crawford plan and it is more than likely that this plan will be adopted.

There is no strife or bickerings among the silver men of Ormsby and there need be nothing but the selection of a good ticket and a little intelligent work to land every candidate a winner.

Lundy Locals.

Our quartet of Chinamen fired a lot of crackers and torpedoes on Thursday morning, because their friends in the old country killed a few Japs.

General Diamond tells a long story about the war in Sacramento on the 4th of July. It is thrillingly interesting, as startling as the report of a hen-convention.

There are several strong indications that Lundy will soon become a thriving camp. It was once as good as anybody's camp for its size, and the outlook is brighter now than it was then. Every move that is being made demonstrates this.

It is believed that silver will go up to a reasonable figure before many months, particularly if China and Japan keep on squabbling. Hundreds of mines and thousands of miners are waiting for something of the kind.

"Duffy the Swell" is camping on the trail of illegal voters. He has shouldered the task of purging the Great Register of names that do not belong there. He knows lots of them, so he solemnly declares, and will "bust up" the next election if his candidates don't come out ahead.

The recent spell of phenomenally warm weather for these mountains, with occasional showers, has caused vegetation of all kinds to start afresh. Summer reproduced itself. There are no signs of the "fear and yellow leaf" anywhere, which is an unusual circumstance to note in September. We won't care if they run this kind of weather into the middle of eternity. The idea of kicking about the weather in Lundy.

Frank Golden's Electric Road.

Frank Golden and associates has been granted a franchise to operate an electric railroad between Grass Valley and Nevada City California.

It is reported that when the telegram announcing that Senator John P. Jones had renounced his allegiance to the Republican party, was received in Virginia, a shout went up, the force of which extinguished the electric lights and several goldbugs fainted. A farmer living near the line of the Wisconsin Central discovered that the track had been tampered with to cause a wreck. The train was approaching, and having nothing to make a light, he tore off his shirt and set it on fire.
